## BIG FUNCTION BY MASONIC ORDER

GRAND MASTER OF ORDER PAYS A VISIT TO LODGE IN STRATHONA

Strathona, Nov. 12.—The visit of Grandmaster Thos. McNabb of Lethbridge to the local Masonic lodge Thursday evening was the occasion of one of the most enjoyable functions ever held in federal circles in the city. A large attendance of members were present at the lodge meeting during the early part of the evening in the Richard's block rooms, many brethren from the Edmonton lodge being present. At an eight o'clock adjournment was made to the basement of the Methodist church where the ladies of the church had prepared a splendid banquet. Fully one hundred and twenty-five guests enjoyed the repast after which a program of speeches, songs and music presided over by Mr. H. B. Christie, made the remainder of the evening pass pleasantly.

The programme was as follows: Prayer—G. F. Downes, Chairman. Toast—J. W. McNabb, G. M. of C. P. of the King. Last—Grand Master and Grand Lodge. Dr. A. C. Rutherford, Health. Song—H. Randall. Banjo solo—Mr. E. Luck. Song—Mr. McDonald. Toast—Visiting Brethren. J. G. Taiton, Reply, Rev. Leitch. Piano solo—Miss Grant. Song—Mrs. A. H. Hay. Toast—The Ladies. P. B. McNabb, Toast—To our departed brethren. V. E. McElroy.

For all kinds of skin diseases, such as eczema, psoriasis, etc.

## BEGIN STEEL WORK ON BRIDGE SOON

Between 60 and 70 Carloads of Steel Have Arrived and Erection Will Commence Shortly

Strathona, Nov. 12.—Along the new line of the C.P.R. to the high level bridge between sixty and seventy carloads of great steel beams which have been unloaded by the steam crane within the past two weeks. These shipments of steel have been arriving in the city at such a rate during the period that it is the expectations of many local officials of the company that the work of erection on the big structure will be begun very shortly. A large portion of the available space along the new tracks from Main street to the out-let of Fourth street has already been utilized for the storage of steel. Owing to the small force of men on the work the extension of the tracks to the bridge site is proceeding rather slowly.

Engineer P. S. Farren who has been in charge for the company during the building of the sub-structure states that he expects that the bridge bidders will arrive shortly but can give no definite information on the subject. He anticipates that Engineer Edgerton, who had charge of the building of the company's big bridge at Lethbridge will supervise the work here.

Mr. Farren leaves next week for Regina where he will spend the winter. He will return next spring after his survey work of the country at the bridge site.

## RUMORED RICHARDS WILL RUN FOR MAYOR

Alderman May Decide to Enter Political Field for Short Term as City's Head

Strathona, Nov. 12.—A well defined movement appears to be under way to effect the election of Alderman V. T. Richards to the mayoralty of the city for the short term which is likely to be necessary before the Legislature takes steps to have the amalgamation of Edmonton and Strathona ratified. The rumor is a persistent one and the excellent record which Mr. Richards has made for himself while for the past several years a representative in council leads to considerable credence being given the report. When questioned regarding the rumor Alderman Richards stated that it was certainly new to him. He would venture no opinion as to the likelihood of his accepting an invitation to place himself in the mayoralty field.

The unexpected delay in the assembling of the provincial house is believed by the majority of citizens to make improbable the passing of any legislation as will prevent the present session of the two cities holding until the amalgamation plebiscite sanctioned in the required statute. That there will of necessity be the regional municipal elections on both sides of the river this fall is now generally conceded. According to the provisions of the city charter the council next Tuesday night must take formal measures to appoint a returning officer for the municipal election on December 11th as well as make other preliminary arrangements for the voting. Naturally there will have to be made on December 11th and as this leaves no probable working days intervening between that time and the assembling of the house on Friday, November 30th, it is hardly possible that the legislature will grant to the evening session the new issue of the day that was at one time anticipated. A new session would not of course hold office more than a few months at the most in the event of the amalgamation bill passing satisfactorily. At any rate there seems little chance of avoiding the pangs of election.

## PRESS AGENTS SAY

THE JUVENILE BOSTONIANS.

The Juvenile Bostonians will appear in this city at the Empress theatre for three performances on Thursday, November 16, presenting that delightful musical comedy, "The Rose of Blarney." The annual endowment of this company is always a big treat to grown up people as well as the children, and the organization even of adults is more popular with theatrical audiences. The charm of this company lies in its being composed entirely of young stars, the youngest at sixteen, the oldest but eighteen. It is the same company with some four changes that first started its career eight years ago, when Mrs. E. Lang, gathered together a lot of clever children and gave a brilliant performance for the benefit of charity. Out of that original company are six or seven young stars who are now being trained for great things in a musical and acting way, for they have undoubtedly talent and personality that will win them seats among the mighty.

Messrs. Cosgrove and Lang, the managers of the Juvenile Bostonians have spared no expense in making their company complete in all respects, both in its equipment. This season a brand new outfit of scenery, costumes and electrical effects with an augmented cast capable of giving a finely finished entertainment.

There is always a wonderful charm and fascination about children's work on the stage, and perhaps no age is more suited to this work than sweet sixteen. A score of young ladies of both ages, all good looking, all graceful, all excellent singers, dancers and actresses is certainly something for the theatre-goer to look forward to. The next show begins today.

## OCCULTISM AT EMPRESS

With the opening of the Mental Psychic and Mystic theatre at the Empress theatre tonight, theatre-goers will have an opportunity of seeing some of the experiments in magic, the deepest test in hypnotism, produced by the greatest living master in the occult sciences, Prof. W. J. W.

There is probably no company that has appeared in Edmonton this season that has made the record for attendance that the Mental company have, over 10,000 people witnessing their performance in this city during their engagement in this city a short time ago.

Special features in magic, illusions, mind reading and hypnotism will be given tonight.

Prof. Mental will be assisted by Miss Bruce Dore and Miss Doretha De Vries, who render the songs.

## LYCEUM THEATRE.

At 8:15 today the curtain will ring up on the famous society comedy, entitled: "A Hot Old Time," the first time that this popular musical comedy has ever been presented in this city. The management are asking special preparation for the new issue of the day that was at one time anticipated. A new session would not of course hold office more than a few months at the most in the event of the amalgamation bill passing satisfactorily. At any rate there seems little chance of avoiding the pangs of election.

## FAMOUS VIOLINIST CRIES LOUDLY FOR RIDE IN AIR.

The distinguished violinist, Jan Kubelick, whose rifts will be displayed to the full when he appears on Wednesday, November 22, at the Empress theatre, is wondering how he can overcome Mrs. Kubelick's objections to his wish to fly for a brief trip in an aeroplane. For several months Kubelick has been determined to go up in the air and his wife has been equally set that he should remain upon substantial ground.

At last seconds both were debating the question with no apparent indication of a victorious outcome for either. However, those who know the violinist assert he is of lenient disposition and that in the end he will probably have his way. In that event Kubelick is not unlikely to be heard of from some vicinity a thousand feet or more above terra firma.

He will not undertake to make an ascent under conditions other than most favorable for the many concerts arranged for him during this, his farewell tour must be carried out. But Kubelick is superstitious and he says he knows there will be an unfavorable outcome to an air journey should he find it did not make one.

This brilliant musician has always

been found of all outdoor sports and has experienced the fun of playing at the game with almost everything that has gained widespread popularity. In the present instance, though, he is not playing a game of chance, his persistence is based on the comforting knowledge that insurance covers almost every known form of disability.

## CONSTRUCTION TRAIN SMASHED TO PIECES

Care Are Demolished and Engine Wrecked. Four of Crew Are Injured (Western Associated Press.) Montreal, Nov. 12.—A special train from the C.N.R. from Quebec, Montreal, ran into construction cars just outside of Quebec at 3:15 last night, but no one was hurt. The train had about 125 passengers, bound for Montreal and Toronto. When about five miles from Quebec, the engine, which is being used by the Quebec Bridge construction company, and came into collision with seven coal trucks. The first two were smashed to matchwood, and the engine was disabled. There was also slight damage to several of the coaches.

## EDMONTON WOMAN IS OFFICER GIRLS' SOCIETY

(Western Associated Press.) Toronto, Nov. 12.—At the closing session of the biennial meeting of the girls' friendly society of the Anglican church, it was decided to centralize the work and officers for a central head will be appointed. The results of the elections were as follows: President, Miss Boulton, Toronto; vice-presidents, Mrs. Frith, Winnipeg; Mrs. Deane, Vancouver; Mrs. Lloyd, Edmonton; Mrs. Chinn, Montreal.

The following were appointed: Central head for literature, Mrs. C. G. Robinson, Toronto; Central head of Canada, Miss Nordheimer, Toronto; Central head of lodges, Mrs. Lloyd, Edmonton; Central head for music, Mrs. Reeves, Toronto.

There is considerable unrest in the engineering trade of Hungary which may lead to a general strike or lockout in this industry.

### EIGHTY MILLION TONS AVAILABLE COAL MINER

(Continued from Page One.)

ing posts were established on the banks of the Saskatchewan, but Edmonton has progressed more rapidly than any other in accordance with the law of the survival of the fittest.

That in time the fur trade was replaced by agricultural development in the district; and railway communication greatly accelerated the process of the settlement, is transformation, however, from a town into the capital city of the province; together with the advent of coupling railways, have been the most important factors in making for its phenomenal growth. In addition to the advantages cited above Edmonton now promises to be the centre of a four-shed coal mining industry; for in the vicinity coal seams have been discovered capable of being worked economically, and on a commercial scale, and are now being exploited.

Ground on to deal with the purpose of the investigation into the coal mines of the Edmonton formation, Mr. Downing states that while for many years mining has been carried on by drift levels

on the banks of the river to attempt at correlation of the seams, they have been the subject of a complete study of the number of seams, their thickness, character, and the amount of covering over them.

The Edmonton formation is coal bearing throughout in the latitude of Edmonton. The upper part, which is exposed for many miles up the Saskatchewan west of Edmonton, contains some of the thickest seams. The top of the formation is marked by a perfectly horizontal and seams are found at intervals in the measures, but apparently not in heavy continuous seams. At Edmonton the seam which crops out of the bank at Glover bar, on the east of the town, is the most abundant, and the only one, apparently, that can be relied on for any extended area. The thickness of the seam, although as great as 8 feet as Glover bar, does not average much over 5 feet for the district, and in local sections it decreases for small areas to a scarcely workable dimension. Below, at a further depth of between 2 and 20 feet, there is evidence of another seam, but whether it is a splitting of the Glover bar seam or an additional one has not been fully proven. The lower one runs from 4 to 7 feet in thickness.

By Mr. J. M. Tons Available Coal.

Three two seams, Mr. Downing observes, appear to be persistent enough to warrant the prediction that about 80,000,000 tons of coal should be mined over the area extending from Glover bar to pass through the town and approximately 100,000,000 tons on either side. This would give for the whole area, therefore, 200,000,000 tons of coal. The latter formation at Edmonton, a total available tonnage of 800,000,000 tons—that is, without undue values of 800,000,000 tons.

On the analysis show the coals of this district to be in the class of sub-bituminous of the United States classification. Experiments have shown that the coal from the latter formation of the down stream type is more economical for power production than the best grade from the upper seam.

Character of Coal Beds.

The top of the Edmonton formation, the report continues, is distinctly a zone of coal bearing beds, which in some cases extends from the southern exposures until at the crossing of the Saskatchewan and the river, the coals are found to reach a thickness of twenty-five feet, constituting a zone divided by a small parting into equal seams.

The thickness of the overlying formation are perhaps more compact than in the upper part of the Edmonton, but a zone in the latter formation is characterized by the distinctly yellowish color of its sandstones, a feature characteristic of the upper formation, in the central portions of the Edmonton, which caps and sandstones are the characteristic rocks, and a second coal bearing horizon is here again in evidence it is unfortunate that this change in this horizon should have been carried out in such very soft rocks the lower portion is not well defined, since the shale bands gradually increase in thickness in going downward, and merge gradually into the shale formation below.

It is reported that to deal with the various coal seams at Hobbema, Dunlop, Lacanville, and west of them these are the tertiary seams. The tertiary coals are to be found in the Athabasca river, above and below the Pembina, close by the crossing of the Grand Trunk Pacific railway; near Wabowah lake; in the valley of the Saskatchewan river near Vacaown in the vicinity of the Beaver river, and near Buffalo lake and these south of the Red Deer river.

ANNUAL CARNIVAL OF NEW HOUSTON

Houston, Tex., Nov. 13.—Houston's annual fair carnival opened today with the arrival of a large number of visitors from all parts of Texas. An elaborate programme of entertainment, including street shows and pageants, fireworks, college football games, and a variety of other amusements, will carry the festival through the entire week.

NATIONAL MUNICIPAL LEAGUE

Richmond, Va., Nov. 12.—A wide variety of municipal problems are to be wrestled with by the delegates who are assembled in Richmond from all parts of the country today to attend the annual convention of the National Municipal League. Commission government, franchise legislation, electoral reform and the local civil service are the leading topics for consideration. Important reports also will be presented by committees appointed to investigate the relation of the social evil and liquor traffic to municipal administration.

#### SUPPORT DEMAND FOR FREE PULP

American Publishers Ask Enforcement of Clause of Most-Favored-Nation Treaty

(Western Associated Press.)

New York, Nov. 13.—The American Newspaper Publishers' Association, through John Morris, chairman of its committee on paper, it was announced here today, has sent a letter to President Taft urging that the government keep good faith in the observance of the 1902 paper clause of the twenty-eight treaties with respect to the free importation of pulp and paper when made from unrefined wood.

The question of enforcing the clause of the 1902 paper clause had been brought up by the committee on paper, it was announced here today, has sent a letter to President Taft urging that the government keep good faith in the observance of the 1902 paper clause of the twenty-eight treaties with respect to the free importation of pulp and paper when made from unrefined wood.

OLYMPIC BOWLING LEAGUE  
ORGANIZES FOR THIS SEASON

Six-Team League Instead of Eight as Heretofore—Will Send Team to St. Paul for Big Tournament—Provincial Championship Cup at Lethbridge

The annual meeting of the Olympic Bowling League was held on Saturday, a large number of bowlers being present. President A. E. Scrase presided over the chair. Secretary Frank Simonton and Treasurer C. E. Morris read their annual reports, which showed the league to be in a very healthy condition. After a short discussion it was decided that this season the league comprise six teams instead of eight, as last season.

The big tournament at St. Paul, to be held next February, was discussed and the probabilities of sending an Edmonton team from here. The provincial tournament is held for the same date at Lethbridge, but it is thought that a second team strong enough to defeat the championship cup could be sent down. The officials, teams, captains, etc., for the coming season are as follows:

## The Officers

Officers for the coming year were elected. They are as follows:  
President—A. E. Scrase.  
Vice-President—Dan Knott.

Secretary—Frank Simonton.  
Treasurer—Ed Morris.  
The captains and teams are as follows:  
Athletes—Captain, Dan Knott.  
Cubs—Captain, West.  
Captains—Captain, Scrase.  
Boys—Captain, King.  
Olympics—Captain, Morris.  
Gents—Captain, Simonton.

## The Executive

The executive committee will consist of the captains of the six teams and the officers of the league and Frank Gossell.

Frank Gossell was added to the executive to settle any dispute that should result in a deadlock. It is not bowling with any team, and will therefore be able to vote without prejudice. When the branch of the executive arose it was discovered that all the officers were already captains of teams and that the total number on the committee would be six. A seventh was necessary. Mr. Gossell was the choice of the meeting.

## Some Alterations

A couple of alterations were made in the rules governing the competitions of the league. Henceforth no two men

## NEWSPAPER BOWLERS

A meeting of the representatives of the newspaper bowlers is requested to be present at the meeting called for this afternoon at 5 o'clock at the Capital Office, when important matters of organization will be decided.

who are unable to be at the alleys for a match will be allowed to bowl off before or after the game and if a team finds itself short a man it will not be able to fill up with other players. A schedule for the first half of the season was drawn up. It provides for fifteen games, three being played each week, starting tonight and ending on December 15th. After the New Year a second schedule will be drawn up. Each team meets the other once before Christmas and once next year.

## The Teams

The teams were framed up, six men being allowed for each. They are as follows:  
Athletes—Knott (Capt.), Watson, Boleker, Stark, E. King, G. Hurt.  
Cubs—West (Capt.), Grant, Gardner, Monoway, Wells, Wright.

SWEDISH WONDER  
FOR THE MARATHON

OLYMPIC GAMES WILL SEE A CRACKERJACK ON THE TRACK NEXT YEAR

New York, Nov. 11.—The latest piece of original news from the seat of the great Olympic games is that the Swedes have unearthed an out-and-out wonder for the marathon race, not to talk of what they will show in the other events. This long-distance phenomenon, never tried a mile quicker than a walk till he was 30 years of age, and then he began to test himself in a most peculiar way. He took a little truck inside of a large barn and began cutting round and round till he could go no farther, so soon as he found that he could maintain a fair log for a period of about three hours he took to the open, and immediately surprised the natives with what he could do in the way of endurance. The man's name is Jacobson, and he is already booked for the big classic.

## CANDID COMMENTS

(By Grad)

The six team leagues which the Olympic bowling league adopted on Saturday for this season is a good one. Whereas last season a team sometimes went two weeks without a match, thereby endangering the interest in the game, the six team idea allows each team to play one match a week.

All kinds of kudos is due to President A. E. Scrase who was again re-elected president of the league. He tried to put across a suggestion that the vice presidents of each year be the president of the following year, but there was nothing doing. Scrase or nobody was the idea.

In most organizations of whatever description, the work generally has to be shouldered by two or three and the bowling league is no exception. Eddie Morris and Simonton have made excellent lieutenants to Mr. Scrase and they were very deservedly re-elected.

One of Edmonton's coming bowlers came into his own on Saturday at the annual meeting. I speak of Danny Knott, who was elected vice-president of the league and captain of one of the teams. Danny is also captain of the Journal's aggregation of bowlers in the newspapermen's league and he is in for a busy season.

Just nothing doing in hockey circles. Isn't it really time someone woke up and did something? There have been two or three eastern players hanging around town these last few days waiting to see what was going to be done. As to their merits as hockey players I am no guide but I do know that they have gone down to Calgary to sign up. Amongst them was M. J. McDonald, rate of the Crescents, New York.

I was talking with Mr. Tom Hill the other day about ice racing. He tells me that he doesn't think there will be anything doing this season. At any rate there will be no meeting on the river frozen over. It will be a pity, if this, one of the best of sports, is allowed to go to the wall.

JOURNAL EASILY  
BEAT BULLETIN

THE JASPER AVENUE JOKE IS WELL WALKED BY EACH FRICKEN OF FIRST STREET

At the Olympic alleys no strategy the Journal bowling team clearly demonstrated its superiority to the Bulletin bunch winning two games out of three. Quite a crowd assembled to see the fun and there was as much of joking. Taken as a whole the bowling was of a mediocre quality and both teams will have to improve if they want to shine in the new league.

The detailed scores are as follows:

	Bulletin	Journal
Powers	89	111
Hill	120	115
Hunt	99	131
Paustler	134	120
Garrison	145	126
Totals	617	633

	Bulletin	Journal
Manning	106	162
Lambert	156	112
Corbett	87	107
Paradise	163	125
Knott	162	115
Totals	694	715

me that he doesn't think there will be anything doing this season. At any rate there will be no meeting on the river frozen over. It will be a pity, if this, one of the best of sports, is allowed to go to the wall.

For a change the Hamilton Tigers have had to take a back seat in the football of the east this season. Whatever changes they had of making premier honors was occupied as Saturday when Montreal easily beat them. The Arson winning from Ottawa as champions of the interprovincial on the seasons play deserve it.

In the inter-collegiate Varsity victory over Ottawa college gave them the championship. The competition has been keen this season and right up to the last minute it was a matter of speculation who would lead the west leagues.

A STUDY OF CAPTAIN HURRY HOME OF YALE, ON THE GRIDIRON—The picture on the left shows Howe's position in the backfield awaiting the moment when the centre will put the ball in play. Occasionally it is difficult in training men not to give the play away by shifting their position or letting their eyes reveal the signal is given and before the play starts. The extra men watch the backfield like hawks for the slightest move of hand or foot, or a glance of the eye often gives a clue to the coming play. In the middle picture Howe is shown kicking the ball. The picture on the right shows Howe in the line and kicking the ball. The picture on the right shows Howe just as a forward pass has been thrown. This play is an innovation in football and has only been used a few times. It is one of the most difficult gridiron plays to execute perfectly and when not perfected will result disastrously to the team that relies upon it for gains.

# EDMONTON THE MECCA FOR RAILWAY WORKERS

Hundreds Are Here from Construction Camps Celebrating Completion of Their Summer's Labors—Rooming House Accommodation Overcrowded

Edmonton to the extreme and typical of the west is the movement of railway laborers from the construction camps on the Grand Trunk Pacific and Canadian Northern lines west of Edmonton; a movement which is now at its height, every passenger train arriving in the city from the zone of construction activity being crowded as only the American type of passenger coach can be with a body of three hundred many railroaders, eager for the excitement of the city life from which they have been cut during a summer on the mountain grades. For a long period of time their only excitement has been an annual poker game in a mountain camp surrounded by the cheerless and appalling quietness of the nature, and as they arrive in the city they are anxious to celebrate in wild and noisy ways.

The workers of a man who has been at work on the mountain for the summer months is likely to be somewhat depleted and for the reason the arrival of so many laborers in the city with three or four p. checks in their pockets railway men are increasing the business of the city. These workers who enter the needs of the working men are therefore much a heavy business just now than they have been during the summer. Heavy shoes, socks, women coats, caps, mules and covered handkerchiefs are in demand and a few seconds in town a large number of the working men come home with their temporary lodging houses, well and fashionably dressed according to the ideas of the mountain worker, and it is a strange fact that they have put off the appearance of the railroad laborer and taken on the aspect of the city dweller. The colored handkerchief about the neck or a bright colored sweater or shirt is always in evidence. A few of them indulge in the luxury of a headed duck-skin coat which happens to take their fancy as it hangs before the window of some second hand store. The majority of those who invest in winter clothes, however, look for utility and warmth.

From all indications there is a class of laborers whose thirst for excitement grows in proportion to the length of time they are deprived of their use and these are the men that neglect to provide themselves with the necessities of life when they arrive in the city. These men on their arrival in the city find the railway activity and they forget the weather and everything else that enters their thoughts in the cheer that they receive over the railway. They find in the police station sometimes, but such an occurrence is infrequent in their philosophy of life and with embellishments it will furnish material for a rousing story of any adventure in a winter camp somewhere in the woods. They do not paralyze the coming houses and they succeed in getting a change of environment. In many cases due to the generosity of some pal who has spent his summer's wages less freely than they.

There are some sharks in a construction camp as well as at a race track and hanging around a pool room in town. From all external appearances they are ordinary laborers, possibly of the rougher class, but they disclose their identity when they present themselves at the head office of the construction company for which they have been working with a pocket full of counterfeit pay checks the possession of which they hesitate to explain, forming a reference of English as a safeguard against too minute an inquiry. The story beneath it all is a poker game or a series of them, somewhere in the mountain wilderness.

**FORMER EXILE S CALLED TO PEKIN**  
YUAN SHIKAI MAKES A TRIUMPHANT RETURN TO CAPITAL—OFFERED PREMIERSHIP  
(Western Associated Press.)  
Peking, China, Nov. 12.—Yuan Shikai, accompanied by 2,000 troops, today made a triumphant entry into the capital from which he was driven in disgrace three years ago. The news that "The Strong Man of China" had at last been prevailed upon to return and give the tottering throne beyond his exiled lands to the emperor, had been provided for the residence of Yuan Shikai and he, and his family, his appearance being recent reports of his physical condition, which had been made an excuse for his delay in obeying the imperial command to come to Peking and assume the responsibility of premier in succession to Prince Guang, which appointment was pronounced in the Imperial edict. Yuan Shikai is communications to the government Yuan has expressed his unwillingness to assume office and whether he could be persuaded to reconsider this decision has been a question of much speculation.

**AMERICAN FEDERATION OF LABOR.**  
Atlanta, Ga., Nov. 12.—With President Samuel Gompers in the chair, the annual convention of the American Federation of Labor began in Atlanta today with the attendance of prominent labor leaders from every section of the United States, together with fraternal delegates from the labor bodies of Canada and Great Britain. The sessions will last about two weeks and will be followed by the annual convention of the National Trades Union of the world.

# MOOSE PLANNING AN ENTERTAINMENT

MEMBERSHIP OF ORDER HAS INCREASED VERY RAPIDLY DURING THE PAST MONTH

The local lodge of the local order of Moose have arranged to present a first rate entertainment programme on Wednesday night of next week in the new Big Moose theatre which they have rented for the occasion. Two performances will be given. In addition to the presentation of a special set of films, songs and recitations will be given by the best of local talent, and an interesting action which is being prepared for the occasion.

The members of the order lodge in Edmonton now numbers 400, and as the charter closes on November 30, a very large increase in the enrollment is taking place. At the regular meeting in the Mechanics hall tomorrow evening, 175 new members will be initiated. The entertainment next week will provide an opportunity for the wives of members to meet.

# McNAMARA'S ACCUSERS SCORED BY GOMPER'S

Head of American Federation of Labor Declares that Prisoner Is Innocent—Annual Meeting of Federation Now Being Held at Atlanta

(Western Associated Press.)  
Atlanta, Ga., Nov. 12.—With the attendance of about 500 delegates, the thirty-first annual convention of the American Federation of Labor opened this morning at the Convention hall. Representing the labor men of Great Britain as fraternal delegates were W. Roberts M.P. and James G. Thompson, the latter a member of the British Labor Parliamentary committee. Winston Churchill of Toronto, representative of Canada as fraternal delegate. The address of the president, Mr. Samuel Gompers, dealt at length with the movement during the past year, stressing the treatment that had been handed to J. J. McNamara, secretary of the Structural Iron workers. Mr. Gompers declared that he was convinced that McNamara was innocent of the charges laid against him and that organized labor would go to the limit in his defense. The report of the secretary of the Federation, Mr. Frank Morrison, showed that the receipts of the Federation for 1915 had been \$182,168.80 and the expenditures \$175,244.02. The balance on hand on September 30th, 1915 was \$185,379.50. During the

thirty months 326 charters to National and International, General, Local Trade and federal unions, have been issued. During the year there were 11,359 strikes in which 190,526 working people were involved. The total cost of \$1,769,550.59 of which \$273,302.00 donated by local unions to other organizations. The total cost of \$1,482,552.75 expended to support strikes. The membership of the Federation is 1,290,423, against 1,000,000 in 1910. There are now fifty-eight labels and ten cards issued by the organizations which have been endorsed by the Federation. At a session of the board of labor commissioners held at Chipman on Saturday, a transfer of the license of the Myle hotel forfeited by the former licensee under conviction, was recommended in favor of Mr. Galt. The board stipulated, however, that certain structural alterations, and improvements to the building must be made. F. G. Foster, provincial license inspector accompanied the commission. He returned to the city this morning.

# NEWS OF THE CITY

The regular monthly dance of the Edmonton Irish association, will be held in the Separate School hall, Third Street on Tuesday, the 14th inst., at 8 o'clock.

Ladies who have material for the Y.W.C.A. rummage sale to be held on November 16th, 17th and 18th, are asked to communicate by telephone with number 2423.

The Edmonton Irish association will hold their regular monthly dance in the Separate School hall, Third Street, Lyncies orchestra will be in attendance.

The recently incorporated Provincial Realty company, will have its head office at 164 First Street. William H. Blackburn and B. Blackburn are secretary-treasurer and sales agent, respectively.

The Edmonton street car service was held up on Saturday evening as a result of the failure of one of the engines at the power plant. Cars were not running during the evening, but they were sent frequently, as what power there was to time. Hundreds of citizens were forced to walk to their residences in the outskirts of the city late in the evening.

Fire from an overheated kitchen stove broke out shortly after 2 o'clock on Saturday morning in the home of Amy H. Schuch, at 145 Currier Street. Fire stations No. 1 and 2 turned out to respond to an alarm made from the corner of Harbison and Currie streets and the blaze was extinguished by the time it had spread to the main part of the house.

As a result of exposure while working for the C. N. R. grade, at Estherville, on Friday last, Frederick Gies, a C. N. R. construction manager is in the MacKenzie hospital, suffering from two badly frozen feet. Gies was driving a team for several hours before he discovered that his feet were frozen. He had lost all feeling in his feet and consequently had not given them any further attention. On his arrival at the hospital in Edmonton, it was found that both his toes and his heels were badly frozen and his feet were being treated by the medical staff.

Following is the calendar of the business commissions for the week:  
Wednesday, 15th, Parliament; Thursday, 16th, Medicine Hat; Friday, 17th, at Brooks. On Thursday, November 30th, the annual anniversary will be at Blairmore to hear five applicants for a wholesale liquor license which has been under consideration of the incorporation of Blairmore, as a town.

On Saturday, the commissioners were at Vegreville. Insufficient results in the dismissal at Strathcona, Friday of Judge Gault, charged by John Smith with embezzlement. It was claimed by the plaintiff that defendant appropriated to his own use, \$200 which paid off alleged to have entrusted to defendant to pay plaintiffs' debts.

The annual general business meeting of St. Andrew's society will be held in the Exhibition association hall, Second Street north, on Friday of this week. All Scotchmen are invited to this meeting. St. Andrew's anniversary will be celebrated with a grand Scotch concert to be held in the Separate school hall on the evening of November 30th.

The local council of the Canadian Order of Chiefs will hold a social and dance, following their regular meeting on Tuesday evening, in their hall on Nahmoo avenue. Provincial Organizer J. H. Mallett will be present at the business meeting when plans for the coming year will be discussed.

A special meeting of the Ladies' Hospital and will be held at the residence of Mrs. J. H. Mallett, on Tuesday at 3 o'clock. A large attendance is requested.

William S. Suring, a local manager of the Edmonton Oil company, arrived in Edmonton, yesterday, from the east with his bride, who was formerly Miss Jessie Hunter, of Winnipeg, Ohio. They were married at Winnipeg, on November 7th, and came direct to Edmonton, from that point. They will take up their residence here.

Mr. Stirling was appointed manager of the local branch of the Canadian oil company only a short time ago.

# BRIDES OF THE HOUR

On Saturday afternoon at 3 o'clock in the First Presbyterian church, Robert Baird Thompson was married to Miss Mary Reid, third daughter of the late Peter Reid of Kitchissippi, Scotland. The ceremony was performed by Rev. Dr. McQueen in the presence of a few immediate friends of the bride and groom. Mr. and Mrs. Thompson will live in Edmonton.

A quiet wedding was solemnized in the Methodist church, Beaver, Wednesday, November 8, when Miss Lilian Wier Warren of St. Thomas, Ontario, was married in marriage to Dr. J. Johnston, Edmonton. The ceremony was performed by Rev. J. H. Johnston, pastor of the church.

Dr. and Mrs. Johnston have taken up their residence at 11 Kirkness street, Edmonton, where they will be at home to their friends after January 1.

# DISTRICT COURT SITTINGS.

Sittings of the district court will be held this week at Millet, Leduc and Strathcona, for the hearing of civil and criminal cases, and on Friday, Judge Taylor, the presiding judge at all sessions of the court in the Edmonton judicial district, will try large civil cases in this city.

At Millet, where court is to be held tomorrow, no cases have as yet been taken down from the docket and it is possible that none may come up for trial. On Wednesday there will be three civil actions: "Dus" Blackwood vs. Joseph Taylor; Mike Padeny vs. Mrs. S. S. S. and J. H. McLeod vs. J. H. Olson.

One of the most sensational trials declared that had he been in such charge there would have been a water and not muddy water as in the past. "However we will certainly have to have muddy water," prompted the commissioner. "There was a cause for muddy water in the past," replied the witness on the ground to provide "muddy water."

"We have been promised clean water in the fall of every year for years," said Mr. Bellamy, "but spring comes there is muddy water and we are told that we will get clear water when the river goes down and that we all know."

GOVERNOR ONLY CAN SAVE BEATTIE  
SUPREME COURT REFUSE TO INTERFERE IN CASE OF MURDER  
(Western Associated Press.)  
Richmond, Va., Nov. 12.—The supreme court of appeals today denied petition for a writ of *habeas corpus* for a woman named Beattie, convicted of the murder of her young wife last July.

The decision was handed down by the judgment of the Chesterfield court which sentenced him to die in the electric chair November 13, a final Clemency or reprieve by the governor can only save the condemned man.

PUBLIC MONEY IS BEING SQUANDERED  
(Gouldsburg from Paris One.)  
declared that had he been in such charge there would have been a water and not muddy water as in the past. "However we will certainly have to have muddy water," prompted the commissioner. "There was a cause for muddy water in the past," replied the witness on the ground to provide "muddy water."

"We have been promised clean water in the fall of every year for years," said Mr. Bellamy, "but spring comes there is muddy water and we are told that we will get clear water when the river goes down and that we all know."
